

HYPERICE has transformed the ball from a basic object into the Hypersphere – a cutting-edge, movement preparation and recovery device which offers a combination of targeted pressure and vibration to inhibit (relax) overactive muscles. While soft tissue balls can help the body stay loose, adding vibration with the intensity and frequency of the Hypersphere takes the whole experience to another level.

The Hypersphere has been used by the world's best athletes to warm up and recover from training and competition. It can be used by anyone who wants to move better. It is an essential tool for localized soft tissue therapy to increase range of motion and improve overall performance.

## PRICING

Please call Sales at 214.363.3111 for all pricing information.

## WARRANTY

All Hypersphere® vibrating balls come with a 1-year manufacturer's warranty.

## PRODUCT SPECIFICATIONS

- Digital circuitry controls with 3 speed settings
- High-intensity vibrating core transfers maximum vibration to the body
- Compact and portable, easy for travel and carry.
- Textured rubber exterior targets vibration for more localized therapy
- Rechargeable lithium ion batteries give over 2 hours of use per charge
- AC charger included
